- Up to 1kV.
- Double door conveyor starter with conveyor and winch controller.
- Flitting panel (optional).
- Lighting transformer (optional).
- Field device/fibre/comms terminating panel (optional).
- Robust transportable mounting platform.

The ExIS Conveyor Combo is an ideal solution if the application requires a conveyor starter, winch controller and a conveyor controller along with lighting facilities and flitting capabilities.

The Conveyor Combo may be purchased in the full configuration or it may also be built to the customers specific requirement package.

Whilst the General Specifications are listed, these may also change to suit specific requirements.

The system features all the necessary and expected safety mechanisms required in an hazardous location such as Earth Leakage Protection, Earth Fault Lockout, Pilot Monitoring and appropriate Motor Protection relays.

General Specifications:

- Supply up to 1kV
- Conveyor - 2*250kW
- Winch – 22kW
- Transformer - 5kVA with lockable isolator
- Flitting panel - 110kW
